The MDE has not edited this description.

1 to 1 Tutor provides a high quality, research-based online program proven to increase students' math skills. We tutor students in 2nd through 12th grade in Math. During tutoring, students interact with teachers on a 1:1 ratio via computer in "real time" – they can hear each other and see what each one is doing on the computer screen through a headphone, mic & whiteboard, which are provided to the students at no cost. Students' learning goals are determined by an assessment test & based on students' classroom programs. Tutoring takes place in students' homes on a computer with internet access. One to two hour sessions are offered Monday-Friday before and/or after school until 9:00 pm and on weekends. Our research-based curriculum and assessment tests are aligned with Michigan Department of Education standards & our tutors are college educated & experienced at working with low achieving students.
